

A diagram of a rectangular container with a blue rectangular object inside. The container is represented by a black outline. The blue object is positioned in the lower-left corner of the container. A dashed vertical line is shown to the left of the container, and a solid vertical line is to the right. The blue object is also outlined in black.

A diagram of a storage unit with its door open. The unit has a grey body and a blue door. Inside, there is a blue shelf and a hanging rod with a white hook. The unit is shown in a cross-section view.

A technical drawing showing a cross-section of a window frame. The frame is composed of several horizontal and vertical sections. Two blue rectangular panes are shown, each with a black border, positioned within the frame. The drawing is a line drawing with a light gray background.

[illegible]

Technical drawing of a building facade showing a cross-section with various dimensions and structural details. The drawing includes a roofline with a series of arches, a main wall section, and a lower section with a sloped roof. Dimensions are provided in meters (m) and millimeters (mm).

Key dimensions and labels:

- Roof arch height: $H \text{ min } 9.50$
- Wall height: $H \text{ min } 9.50$
- Wall thickness: 10.50
- Roof slope height: 10.70
- Roof slope width: 4.41
- Roof slope thickness: 0.55
- Roof slope height: 10.50
- Roof slope width: 6.65
- Roof slope thickness: 6.25
- Roof slope width: 6.05
- Roof slope thickness: 6.55
- Roof slope height: 6.75
- Roof slope width: 6.50
- Roof slope thickness: 6.55
- Roof slope width: 2.30
- Roof slope thickness: 1.40
- Roof slope width: 1.80
- Roof slope thickness: 2.50
- Roof slope width: 8.00
- Roof slope thickness: 2.20

Technical drawing of a window assembly showing dimensions in millimeters. The drawing includes a side elevation and a cross-section. Dimensions are labeled as follows: 10.83, 11.03, 4.41, 0.55, 0.85, and 10.83.
